

# ROQEEB OBADARA

I am a results-oriented software engineer with more than 4 years of experience developing scalable and user-centric products for millions of users worldwide. I possess strong skills in frontend development, coupled with a solid understanding of software principles and architecture, enabling me to write maintainable code. Additionally, I have a proven track record of successfully leading distributed teams to deliver high-quality software solutions.

## Work Experience

### Stevic Payment (Remote/Contract) - Frontend Engineer (React/Javascript)

August 2022 - Present

- I worked with the development team to build a monitoring interface for a financial application that runs on the TIANYU P30 Android POS device.
- Collaborated with the backend team to integrate APIs and ensure seamless functionality.
- Translated UI/UX designs into responsive and interactive web interfaces.
- Implemented best practices in frontend development, including clean code and performance optimization.

### Blockchain Lab (Lagos, Nigeria) - Frontend Engineer (React/Javascript)

April 2022 - May 2023

- Designed and implemented a resilient business application that empowers property owners and prospective buyers to authenticate and validate properties effectively.
- Performed consistent improvement of user experience and responded to customers' issues
- Collaborate with cross-functional teams to develop and deliver innovative full stack software solutions.
- Architect and develop scalable and high-performance web applications.
- Utilize best practices and software principles to write clean, maintainable code.
- Manage and lead distributed teams to ensure successful project execution.

### Newmeq Digital Concept (Ibadan, Nigeria) - Frontend Engineer (Bootstrap/React)

August 2019 - Mar 2022

- Developed frontend systems for various web applications, focusing on creating exceptional user experiences.
- Collaborated with designers and backend developers to implement responsive and intuitive interfaces.
- Leveraged modern web technologies and frameworks to deliver high-quality frontend solutions.

## **Creative Minds (Part-Time/Volunteer) - Frontend Developer (Javascript/Bootstrap)**

Sept. 2018 - December-2021

- Collaborated with a team of developers to maintain and enhance the department's website.
- Implemented new features and improvements based on user feedback and requirements.
- Ensured a stable and smooth user experience by optimizing website performance and addressing any issues or bugs.
- Utilized modern frontend technologies such as HTML, CSS, and JavaScript to build responsive and interactive web interfaces.
- Employed popular frontend frameworks and libraries (e.g., React, Angular, Vue.js) to develop modular and maintainable code.
- Taught and mentored students in frontend development, providing guidance and support in their learning journey.
- Managed and updated the department's website content, ensuring it remains up-to-date and relevant.
- Followed best practices in frontend development, including code documentation, version control, and testing.

## **Education**

B.Sc, Agricultural and Environmental Engineering- University of Ibadan.
